Coopers Hawk	3	3	3	3	4	3	4	4	3	30		I love a good "look" from a hawk! If you have the room, I'd move the hawk to the left a bit to give it room on the right to roam. Also, perhaps brightening the subject would make it pop out a bit more from the background. Nice capture!	Terry Holdren
Mother Bird on Nest	3	3	2	3	3	3	3	3	3	26		The subject is not in focus. You did get a catchlight in the eye. The bird looks stressed.	Donitta Gardiner
Rainbow Eucalyptus	3	3	3	3	4	3	3	4	3	29		Interesting image with lots of interesting color. I wonder if there is another composition without the vine at the right? It seems to compete with the colors for attention.	Donna Hendrick
Frozen Orchid	4	4	4	3	4	4	3	5	4	35	НМ	I like the technique, but I think it could be stronger if it was more apparent that it was an orchid.	Terry Holdren
Rock Trio	3	3	3	3	3	3	3	4	2	27		Interesting area that looks like a Dr Suess park. All the green distracts from the subjects. Change composition may	Stephanie Nelso
Madison County Covered Bridge Graffiti	3	4	4	3	4	3	3	4	3	31		Nice work organizing this image to focus on the heart enclosed information.	Bob Young
Red	3	3	2	3	3	3	3	3	2	25		I like the concept, and perhaps the floating look was your intention, but unless you're looking straight down on a flower, I think the stem would have added to the beauty. The green part that is not in focus is distracting.	Randy Edwards
Running-Ahead-of-Time	3	4	3	3	4	3	4	4	3	31		Good job getting mans face enough in focus. I like the blur of the image and the motion.	Steve Guns
Money in the Bank	3	3	3	3	4	4	3	3	3	29		Corn is King! Nice work capturing an iconic harvest scene and stopping the action of the corn coming out of the auger.	Lori Githens
Sunset Crosses	3	4	3	3	4	2	3	4	3	29		I like the crosses against the sunset, but I think a tighter crop (cropping the tree on the right and perhaps a little off the bottom) would draw the eye to the crosses faster.	Steve Daggs
A Single Drop	3	3	3	4	4	4	3	3	3	30		Good subject and composition. Nothing is in focus.	Lindha Steffen
Double Rainbow Miami Beach	4	4	3	3	4	3	3	4	4	33		Beautiful image, nice composition and interest.  Fun structure! It appears that some of the natural shadows have been lightened. With the sun as bright as it was, I think keeping some of them would feel more natural. I found myself wanting to see more water. Maybe a wider crop?	Steve Daggs  Barbra Ritchison
Gourds	4	5	4	3	5	4	3	5	5	38	2	I love the colors. Everything is in focus. Good subject.	Bob Young
Lily of the Lake resize	4	4	5	4	3	4	4	4	4	36	НМ	Lovely image with a nice reflection. Good use of depth of field to emphasize the subject.	Donna Hendrick
Santa Arrived	3	5	4	3	5	5	3	5	4	37	3	Great concept! I found the red on the upper left corner to be a bit distracting. Also, be careful of where your focus point is. The right horse's tail seems more in focus than	Lindha Steffen
Monarch	3	5	4	3	4	5	3	5	4	36	HM	JanieNice colors. Pretty bokeh, and butterfly is in focus.	Barbra Ritchison
Rainy Day	4	5	5	3	5	5	3	5	5	40	1	PennyNice represention of a rainy day by shooting through the rain streaked window, well seen and captured. Wondering if a slight rotation, counter clockwise, would straighten the vertical lines?	Donitta Gardiner
Challenger	3	3	4	4	4	3	4	3	4	32		Great capture! I think a bit more background blur would help him pop out of the vegetation. Since the moose is the subject, it would be stronger if the entire snout was in focus. It appears that some of it is not.	Randy Edwards
Don't-Look-Away	4	4	4	3	4	4	3	3	3	32		Nice colors. Both buildings are sharp and in focus. Too bad there were no clouds.	Steve Guns
Dancing Lights	4	4	3	3	4	3	4	4	3	32		PennyMirror balls bring the party! Wondering if there is another composition here? Relizing the mirror balls are in the rafters, and thinking of story telling, is it possible to isolate one (or a partial one) with the reflections?	Stephanie Nelso
Winter Sunrise	3	4	2	3	3	3	3	3	3	27		Beautiful sunrise! Since sunrise is your subject, I think moving your camera to the right to eliminate the tree and capture the water tower would make this stronger. Also, perhaps remove the upper 2 power lines.	Lori Githens

Fishing At The Waterfall	3	4	5	4	5	5	4	5	4	39	3	This image tells a story and the fisherman standing in front of the blurred water is great. Parts of the water appear blown out so the highlights need to be reduced as much as possible.	Barb McGraw
Abandoned School Bus	4	4	3	4	4	4	4	4	3	34		Interestibg subject matter. Wonder if a different perspective might have been more powerful. I like the detail.	Jack Howells
Hoping for a treat	4	4	3	4	4	4	4	5	3	35		Nice Rule of Thirds and great deail in the fur. I like the way the goat is looking off to the distance	Janie Lawson
The Traveler	4	4	4	3	4	5	4	5	4	37		This is a unique and interesting image of the traveler with the umbrella and works well in black and white. I wish the subject was a little sharper and that the words and structure above the ledge did not draw my eye away from the center.	Jeremia Gardiner
Egg Shells	4	4	5	4	5	5	4	5	5	41	1	The details and layers create great interest. The creativity is fun and refreshing. The light spills on the side may be distracting.	Barb McGraw
Looking Up Inside Shot Tower	5	5	4	4	4	4	5	4	4	39	HM	The DOF is great, as well as the shadows and highlights	Patty Foster
Orange dream	4	4	4	5	5	4	5	4	4	39	2	I love the color and dreamy quality of the image. Very good composition and nice work.	Janie Lawson
Invasion	4	4	3	3	4	4	4	4	3	33		Nice use of diagonal lines. Composition allows movement of the viewer's eye throughout the image.	Jeremia Gardiner
Golden Milkweed	4	5	4	4	5	5	4	4	4	39		Fantastic lighting and nice composition. I would take out the small grass on bottom left as well as the branch on the top and	Patty Foster
