| Paragon Prairie Tower | 4   | 4  | 3  | 4   | 4  | 4  | 4  | 5  | 4   | 36    | 2nd   | Lovely colors and good composition and placement of the moon. You may want to bring down the highlights a little to get more definition in the white lights.  | Bob Young        |
| Intruder              | 4   | 4  | 4  | 3   | 3  | 4  | 3  | 4  | 4   | 33    |       | Great perspective of this nest with cowbird egg. It's a hard shot to get. If you use Photoshop or Lightroom you might want to remove the leaves at the top. (Also the two tiny dust spots.)   | Randy Edwards    |
| Heritage              | 3   | 4  | 3  | 3   | 4  | 3  | 4  | 4  | 4   | 32    |       | I've been to this rest area! Nice job contrasting the scale of the monument with the people surrounding the base. Have you experimented with different crops? Maybe a vertical (portrait) orientation would further emphasize the scale of this monument. The concrete shape at the lower right is distracting so perhaps try a crop that takes this away. Also wonder if the evergreen branches at the left side can be cropped out as well. | Randy Edwards    |
| Giraffe Tongue        | 4   | 5  | 4  | 3   | 4  | 5  | 3  | 5  | 5   | 38    | 1st   | Nice close-up with a catch-light in the giraffe's eyes. You may want to leave a bit more space around the head and add some additional contrast to make the image pop.  | Bob Young        |

| Milkweed Bugs         | 4   | 4  | 4  | 3   | 4  | 3  | 3  | 5  | 4   | 34    |       | A fun subject, well executed with a nicely restricted depth of field. To further highlight the subject I would have been interested to see if a subtle reduction of exposure of the background would help   | Jack Howells     |
| Estes Elk             | 4   | 3  | 4  | 4   | 4  | 5  | 4  | 4  | 5   | 37    | 3rd   | Nice sharp photo. In processing the shadows, it looks too blue and a bit artificial on that side of the elk's face.   | Terry Holdren    |
| 1876 Mill Bridge      | 4   | 3  | 4  | 3   | 3  | 3  | 4  | 3  | 4   | 31    |       | Great depth of field and detail in this image. I would like to see a bit more of the scene, especially on the other side of the bridge. I also wonder what it would look like with the fall colors.   | Jack Howells     |
| Rocky Mountain Moose  | 4   | 4  | 5  | 4   | 3  | 4  | 4  | 4  | 5   | 37    | НМ    | The negative space of water provides a nice framing element for the subject.  | Terry Holdren    |
| Old Truck             | 4   | 4  | 4  | 3   | 3  | 4  | 4  | 4  | 5   | 35    | НМ    | Nice coloring and "feel." Cropping is a bit oddnot centered, not thirds. Play with it a bit.  | Stephanie Nelson |
| Weather in Time       | 3   | 4  | 5  | 3   | 4  | 4  | 4  | 4  | 4   | 35    |       | Excellent detail in the hands and good use of selective color. I would like a little broader crop, so the hands are not quite so close to the edges.  | Jeremia Gardiner |
| Shadow                | 3   | 3  | 4  | 3   | 3  | 4  | 3  | 3  | 3   | 29    |       | The strong graphical element is the star of this image and the off-center placement. The other surface imperfections are distracting.   | Stephanie Nelson |
| Butterfly             | 3   | 3  | 4  | 4   | 4  | 4  | 3  | 3  | 4   | 32    |       | Wing is sharp, but not the face. I like showing the flowers. Boca is good, too.   | Donitta Gardiner |
| Thistled              | 4   | 4  | 3  | 3   | 3  | 4  | 2  | 3  | 4   | 30    |       | Lovely light, good composition and a nicely blurred background. The front of the thistle has good detail but I find that the lighter strands that are out of focus to be somewhat distracting. You may want to bring down the highlights and/or to increase your depth of field.  | Chuck King       |
| Kin of the Rainforest | 4   | 5  | 5  | 5   | 5  | 5  | 5  | 5  | 5   | 44    | 1st   | A nice job of emphasizing the eyes and the different tonal values keep the photo from being static.   | Jeremia Gardiner |
| Prairie Sunrise       | 3   | 3  | 4  | 3   | 3  | 4  | 4  | 3  | 4   | 31    |       | I love the sunrays and fuzzy textures of this scene. The foreground is kind of blah, though. I would like to see the "subject" more prominent, maybe cropping the bottom 1/3 and maybe both sides off to emphasize where the sun is shining.  | Chuck King       |
| Koala Sleeping        | 4   | 5  | 4  | 4   | 5  | 5  | 5  | 4  | 4   | 40    | 2nd   | Sweet intimate portrait of the Koala bear. The arm in front has great detail but I feel like the face loses a bit of the sharpness. You may want to increase your depth of field a little, to make it as sharp as arm.  | Donitta Gardiner |
