Sunshine	3	4	5	3	4	3	4	4	4	34		Beautiful flower! Nice focus on the flower, and I like the slight angle of the stern. You may consider a small increase in space above and below the closest petals to the top and bottom edges. The background is a bit bright, harsh and distracting. A more subtle, soft color that would blend with or enhance the flower	Scott Breach
Thatched Roof Cottage near Culloden, Scotland	3	4	3	3	4	3	4	4	4	32		Nice colorful pastoral scene with lovely clouds. It appears to be a smaller size than most of the images so you may want to check your sizing.	Chuck King
Christmas Conjunctions-0	4	3	3	3	3	4	4	3	4	31		Nice impact with this night sky photo. As slightly tighter crop on the left might improve the composition. Rotate image so the verticle edges of the house are straight.	Jeremiah Gardiner
AnotherBeach	4	3	5	4	3	4	3	3	4	33		Wish I was there to take the photo! There are no distractions in the foreground and background and the head, forelimb, and neck seem to be in sharp focus.	Randy Edwards
Snowboarders	3	3	3	3	3	3	4	3	3	28		Good action shot on the slopes. The skiiers are very dark so you may want to bring up the shadows. The snow could also be brigher with a bit of the blue removed.	Donitta Gardiner
Candles	3	3	3	3	3	4	3	3	4	29		Nice image. Could you have used a smaller apurature to get a sharper "star" effect in the candle lights? If you are using Lightroom, you might try to do a little noise reduction.	Donitta Gardiner

Sunrise at the Rock	4	4	5	4	4	5	4	4	5	39	1	Lovely scene with a nice star burst. You may want to bring down the highlights a bit for more definition in the sun and sunlight hitting the rocks. Interesting photo. The guy rowing the boat is a little distrackting. It	Barry Hulse
